

SINGAPORE INTERNATIONAL WATER WEEK 2024

THE GLOBAL PLATFORM TO SHARE AND CO-CREATE INNOVATIVE WATER, COASTAL AND FLOOD SOLUTIONS

18 - 22 June 2024

Sands Expo & Convention Centre
Marina Bay Sands, Singapore

AN INVITATION TO CITIES

Scientific consensus on climate change is overwhelming, and complex shifts happening in our climate today are having profound impacts on cities. Cities are experiencing more frequent and intense flooding and storm surges, and increasing episodes of droughts, while combating the threats of sea-level rise to coastline developments.

There is urgency for governments, cities, utilities and industry to collaborate to tackle climate change and adopt sustainable practices to mitigate climate impact on water security that will be key to sustaining populations globally.

At Singapore International Water Week (SIWW) 2024, we will bring together thought leaders, experts and practitioners to share best practices, co-create innovative water, flood management and coastal protection solutions, and foster new partnerships to tackle urban water and climate challenges. We aim to galvanise climate action by providing a platform for exchange, sharing and collaboration amongst municipal and industrial stakeholders.

This is an invitation to you to join us at SIWW2024 to take collective action to create climate-resilient cities.

Themes at SIWW2024

CLIMATE MITIGATION & WATER SUSTAINABILITY

Including net zero and decarbonisation, nexus and circularity, advanced treatment technologies, used water management and reuse, low-energy desalination, water quality and one health, climate financing.

CLIMATE ADAPTATION

Including coastal protection and flood resilience, nature-based solutions, blue-green infrastructure, adaptive multi-functional land use, adaptation financing.

DIGITALISATION

Including smart networks and systems, sensors, digital twins, AI and machine learning, autonomous robots.

Our Unique Value Propositions

THOUGHT LEADERSHIP

Insights on latest trends, strategies, policies and practices in urban water, flood management and coastal protection.

SOLUTIONS & TECHNOLOGY

Innovation, technology, solutions and applied case studies in urban water, flood management and coastal protection, for municipalities and industry.

BUSINESS & NETWORKING

Gathering of industry, utilities and governments for business collaboration and partnerships.

GLOBAL EVENT, REGIONAL FOOTPRINT

A global water, flood management and coastal protection show that showcases the best of the world to Asia.

URBAN SUSTAINABILITY

Co-located with CleanEnviro Summit Singapore to advance sustainability agenda for built urban environment.

Organised by:

Singapore International Water Week Pte Ltd, a company set up by Singapore's Ministry of Sustainability and the Environment and PUB, Singapore's National Water Agency.

Held in conjunction with:

Key Programme Highlights

Cities Roundtable on Coastal Protection and Flood Management

Closed-door, by-invitation-only

The Roundtable invites leaders from coastal protection and flood management regulatory authorities, city departments and agencies to meet in a closed-door setting for frank and open sharing of experiences in policy intervention, community engagement, and innovative solutions to build climate-resilient cities.

Leaders Forum

Plenaries will shine the spotlight on how industry can provide access to knowledge, technology and innovation to support the transformation of utilities and cities to become climate-resilient, smart and sustainable.

Lee Kuan Yew Water Prize

Named after Singapore's first Prime Minister, the Lee Kuan Yew Water Prize honours the outstanding contributions by individuals or organisations towards solving the world's water problems by developing or applying innovative technologies, policies or programmes which benefit humanity.

Young Water Leaders Summit

A leadership programme for next-generation leaders, offering valuable learning, networking and exposure opportunities with global city, utility and industry leaders, and PUB during the event.

Water Convention

Co-organised with the International Water Association, the Water Convention provides the platform for the sharing of innovations, advanced technologies and best practices in urban water, flood and coastal management.

Thematic and Business Forums

Covering emerging trends, opportunities and challenges of today, the Forums showcases successful public-private partnerships and high-impact collaboration across various themes and markets in the sector.

Water Expo

In cooperation with IFAT and organised by Messe Munich, the SIWW Water Expo is the pre-eminent marketplace for the international urban water, flood management and coastal protection community to converge and find opportunities in business. The Water Expo showcases the latest state-of-the-art solutions, technologies, products and services for cities, utilities and industry in Asia.

Networking Functions

Numerous networking functions offer informal opportunities to foster business and collaboration over drinks and meals. These functions include the welcome reception, industry night, networking lunches and coffee breaks, and the prestigious Lee Kuan Yew Water Prize Award Ceremony and Banquet.

Technical Site Visits

Experience first-hand Singapore's integrated approach in achieving water sustainability and security. These visits exemplify the best of sustainable urban and water solutions through Singapore's transformation into a City of Gardens and Water.

Who Will You Meet?

- Senior officials from municipal governments and cities
- CEOs and senior leaders of water utilities and agencies
- Industrial water end users
- Captains of the water industry
- Leaders from international and national water organisations and research institutions
- Leaders from financial institutions and multilateral banks
- Distributors and buyers from Asia
